

Clamp Jacket™

Protective cover for hose clamps

FITS

Hose Clamps

V-Band Clamps

T-Bolts

Put an end to exposed hose clamp tails! Clamp Jackets by PYI Inc. protect users from cuts and scrapes caused by the sharp ends of hose clamps.

Made out of durable EPDM rubber, the unique sleeve design allows the Clamp Jacket to slip over the tail of a worm gear hose clamp to provide a worker protection from cuts and abrasion from exposed clamp tails. These jackets are available in 4 sizes (matching standard hose clamp width). On top of the obvious protection advantages the Clamp Jacket™ gives your work a clean finished look.

The Clamp Jacket™ is ideal for a multitude of projects including marine, automotive, industrial, military and even around the house. So quit cutting yourself and get some Clamp Jackets™, after all they're cheaper than Band-aids.

TECHNICAL SPECS

Non slip grips for easy installation and removal.

Self aligning lip makes for quick installation.

The Clamp Jacket™ is manufactured from EPDM rubber. EPDM is extremely resistant to weathering and performs well in brake fluids, acids, alkalis, ketones, oils & greases, and steam (up to 400 degrees).

The Clamp Jacket™ has non slip grips on the sides for easy installation and removal.

- Temperature range of -65 to +300
- Material durometer of 70 + / -5 (Shore A)
- Tensile strength of 14.3 MPa
